FABRIC GUIDE

DOUBLE YARN CONSTRUCTION
The double yarn is a unique construction where two slim fibres are twisted into one thicker yarn. This creates a very durable and hardwearing fibre with a softer, more cotton-like feel to the finished fabric, and gives an extremely stable surface for even the most complex decoration and embroidery.

FRENCH TERRY KNIT FABRIC
The inner layer is existing of a non-brushed loop fabric. There is no fluff, which makes French terry knit fabric ideal for decorating.

HERRINGBONE
Named because it resembles the skeleton of a fish, the Herringbone broken chevron pattern is subtly different and distinctive.

LYCRA® T400®
The elastomultiester (LYCRA® T400®) is an advanced double fibre originally developed for jeans. It gently stretches and recovers in every direction and creates a premium garment that retains its fit, and moves with the user.

MICRO-TWILL
A very fine weave using thinner and smoother yarns, combining excellent flow and drape with the elegance of a fine weave fabric. An excellent fabric for premium formal shirts.

NON-IRON
Formal shirts that don't require ironing and stay wrinkle-free while worn. Traditionally achieved by applying a coating onto the fabric. Russell Europe's ultimate non-iron shirts use a modern steaming technology that achieves superior non-iron properties without any coating.

OXFORD
The combination of elegant appearance and excellent durability make Oxford fabrics a good choice for shirts used as team uniforms.

PEACHED FABRIC
Fabric surface is softened by emery-covered rollers. This emerizing process breaks the surface of the yarns, creating a softer hand feel.

POPLIN
Poplin provides a smooth hand feel and an elegant looking surface, making it one of the most common weave types for formal shirt fabrics. It is tightly woven and provides excellent durability.

PIQUE
A fabric generally used for polo shirts. Most commonly used is the single tuck pique, with its finer micro pique variation using finer yarn and a narrower knitting pattern. The double tuck pique has a characteristic honeycomb pattern with superior durability and a softer hand feel.

RINGSPUN YARN
Ring spinning integrates shorter fibres into the yarn by adjusting them with the longer yarns. This leads to a smoother yarn with a softer hand feel and higher durability. Russell Europe only uses yarn that is at least ring spun quality or better.

TENCEL®
A man-made fibre using a natural raw material and produced in an environmentally friendly process. Tencel® has superior hand feel, is very skin friendly and provides excellent moisture transfer properties. Tencel® is generally blended with other fibres; Russell Europe uses blends with cotton.

TEFLON® (DUPONT)
Teflon® fabric protector is built into the fabric and repels water, oil, and stains. Moreover, it does not impact the weight, look, colour or breathability of the fabric.

TWILL
Varying the crossovers of the two yarns, warp and weft, creates diagonal patterns that improves the flow and drape of a garment. Russell Europe uses twill weaves for shirt fabrics, as well as for workwear Trousers – the good flow of the fabric combining durability with wearer comfort.

SPOT SHIELD™
Fabrics with a SpotShield™ finishing repel water and most oil-based spills.

SPARE BUTTON
All Russell Europe shirts and polos come with a spare button.

For a better colour reference of the garments, please refer to the product and detail shots and contact your sales representative for more details.

FINDING YOUR SHIRT SIZE

To find your shirt size, measure around the neck, just below the throat area. With a closed top button, a finger should fit comfortably between the collar and the neck. To measure the chest, measure the fullest part – about 2.5cm below the underarm. Information about our shirt sizes can be found in our size guide.

PAGE 151

THE RIGHT SHIRT IN THE RIGHT FIT

Our shirts are available in three fits – Classic, Tailored and Fitted – with sizes up to 6XL providing a fit for everyone. With our extensive choice of fabric and colours your clients can achieve a truly distinctive look.

CLASSIC A traditional shaped shirt for a relaxed fit.

TAILORED A semi-fitted shirt for a more contemporary look.

FITTED An ultra slim fit for a stylish and fashionable appearance.

SHIRTS & STRETCH TOPS

When the original Russell Collection of Shirts launched, it transformed the industry with an approach to design previously reserved for retail fashion. Today our collection of smart businesswear continues to innovate and lead the market with garments that are tailored to flatter and designed to perform.

COLLAR OPTIONS

BUTTON DOWN
A modern sporty collar that comes from polo sports styling, the buttoned-down collar gives a smart appearance without a tie.

KENT
Perfect for business, this classic collar is named after the Duke of Kent. Our Kent collars are stiffened, boned collars suitable for embroidery.

NEW KENT
The New Kent is a combination of the Kent and Cutaway styles. Not as wide-flared as the Cutaway or as sharp-cut as the Kent collar, this modern style is stiffened, boned and suitable for embroidery.

LADIES
Our Ladies' Shirts feature a classic collar distinguished in style by its length and shape.

STYLE IS IN THE DETAIL

Details make such a difference. So as well as a wide choice of fabrics, Russell Europe gives you different collar and cuff styles to pick from too – from casual-smart to ultra-smart – helping you to build a look and get exactly the right shirt you need, for every possible business and occasion.

CUFF STYLES

ROUNDED EDGE CUFFS
Adjustable with 2 buttons

SQUARE EDGE CUFFS
Adjustable with 2 buttons

MITRED EDGE CUFFS
Adjustable with 2 buttons

CUFF LINKS
Many shirts offer the option to wear cuff links.

COCKTAIL CUFFS
These can be worn either turned or not turned, for a stylish look.

LONG SLEEVE OR SHORT SLEEVE?

Both work in a business environment, but shirts with long sleeves tend to look more elegant. Always wear a long-sleeve shirt with a jacket/suit.

PERFECT SLEEVE LENGTH

Your shirt sleeve should end at the base of the thumb, and the cuff should stand out 1cm further than your suit jacket sleeve.

ELEGANT TUCK

When tucking in, avoid letting the shirt wrinkle too much. Buttons, belt buckle and fly should all be in one line. Ensure your shirt is long enough – the shirt should not come out of your trousers when you lean forwards.

FINISHING TOUCHES

Match your outfit with suitable shoes and belts – typically these should be the same colour (black/black, brown/brown). The right tie and a watch complete your stylish look.

STYLE GUIDE

Different kinds of work needs different kinds of shirts. Russell Europe understands this, so we give you lots of choice. Whether your business is more about presenting a traditional corporate image, a fashion edge, requires a more durable solution, or if it's about finding a more relaxed image, we offer stretch shirts, easy-care fabric shirts, non-iron, classic-smart Oxfords, Herringbone, Twill and premium fabrics across the collection. We really do have the perfect shirt for every business and every job out there.

ULTIMATE NON-IRON SHIRT
956/958

We do two things to make our shirts truly non-iron. Firstly, the high-quality, compact cotton is treated with a special vapour. Thus it makes the fibre plumper and softer, and creates an even tighter weave – so there´s nowhere for creases to form. Secondly, all possible seams are taped internally. These taped seams form scaffolding in the fabric – so it holds its shape and resists creasing.

EASY CARE OXFORD SHIRT
922/923/932/933

Oxford weave is a core fabric in the fashion world. Ideal for any corporate team, our Oxford range allows everyone to look their best, while presenting a smart and consistent team appearance. Oxford incorporates a thicker yarn and a thinner yarn to create a distinctive, textured finish. The distinctive weave structure creates an extremely durable fabric that not only looks the part, but also washes and irons beautifully.

FEATURES

Choose Polos made from polycotton that hold their colour and dry faster. Or choose the pure comfort of 100% cotton. For a more fitted look that retains its shape longer, go for our Stretch Polo made from a combination of cotton and Lycra®.

QUALITY

Every garment in our Polo range is perfectly designed – all details have been considered. The softness of the fabric, the style of the collars and placket, neck-tape, cuffs, vents and seams... take a closer look and see the Russell Europe difference for yourself.

POLOS

From sports teams to corporate teams, Polo shirts are such a versatile garment. In addition to the quality, our details set Russell Europe Polos apart; we offer six key styles, each offering something a little different. Find your perfect Polo right here...

ULTIMATE COTTON POLO
577

When only 100% cotton will do, our 577 Ultimate Cotton Polo is the natural choice. Our fabric is pre-washed so it will hold its size and shape for longer – making it extremely well suited to team wear. We use finer, thinner yarns along with the double-tuck pattern to create an exceptionally stable fabric with a very dense knit. The result is a softer hand-feel and a finer surface that's ideal for more detailed embroidery.

PRODUCT:

R-577M-0 Men's Ultimate Cotton Polo
R-577F-0 Ladies' Ultimate Cotton Polo

FEATURES:

- Classic fit
- Contemporary cut
- Side vents with internal herringbone taping for added stability and better fit

CLASSIC POLYCOTTON POLO
539

Our classic polo shirt uses a unique double yarn. With two slim fibres this unique double construction creates a very durable and hardwearing fibre. Yet it also gives a softer, more cotton-like feel to the finished fabric, and an extremely stable surface for even the most intricate decoration and embroidery.

FEATURES

A soft-touch feel, contemporary fit and broad colour range are features you expect to find in a Sweatshirt. Flat drawcords, buttonhole eyelets and headphone access are just a few of the extra delightful details you get when you choose Sweats by Russell Europe.

THE COLLECTION

Russell Europe Sweats are available in three outstanding ranges – **Authentic, Classic** and **Workwear** – all offering excellent printability.

SWEATS AND JOG PANTS

We know about making perfect Sweats – because we invented them. In 1920, our founder Benjamin Russell developed the first cotton sports sweatshirt. Today, continued innovation and perfection of this iconic style ensures Russell Europe sweats still lead the field, offering a great choice of colour and styles for all your promotional, workwear and sportswear needs.

AUTHENTIC SWEAT
262

Russell Europe Authentic sweats are built in three layers. On the inside a fluffy mix of cotton and polyester gives comfort and warmth. A middle layer that´s 100% polyester adds bulk.

The outer layer is 100% cotton which feels good – and gives the best surface for decoration.

FABRIC TECHNOLOGY

It is no wonder that Russell Europe fleeces are in constant demand. Our modern fabrics are more compact than traditional fleece materials but provide the same protection. Not only does this make for a smarter-looking garment, it makes them perfect for decoration too.

FEATURES

Cadet collars, side pockets, bungee cords, cord-pulls, vents... Russell Europe has considered every detail of its fleece range making every piece smart, practical and incredibly wearable.

FLEECE

Practical, warm and comfortable, fleeces are perfect garments for cooler conditions. But with our appreciation of style, fit and fabric, as well as our keen eye for detail, Russell Europe fleeces stand out as the choice for workwear.

FULL ZIP OUTDOOR FLEECE
870

They're comfortable, cosy and give you protection against the wind and the chill. Our modern fleece fabrics are much more compact than traditional materials, but they still provide all the protection you need against wind and chill. And they give a much smoother surface – so they're ideal for decoration. Even an exceptionally comfortable, cosy outdoor fleece can be sleek and smart. Our paneled construction gives a slimmer, sleeker look that's a subtle reminder of the fleece´s sportwear heritage.

TECHNOLOGY

Russell Europe puts science into its Softshell, with a three-layer construction that protects, looks great and enables decoration. The **New Bionic Softshell Jacket** is the latest member to the Softshell family. This excellent fitting Softshell jacket is treated with a Bionic-Finish® Eco which is the perfect combination of revolutionary water repellent quality and air permeable convenience.

PAGE 118

DETAILS

Russell Europe's range of jackets is so considered it demands a closer look. The level of detail in every piece is outstanding – feature hoods, collars, fastenings, linings and clever pockets are just the start. From reflective tapings to Teflon® coatings to microfleece linings and wash-friendly construction, you simply will not find a better equivalent workwear jacket. And with discreet access featuring on many of our jackets, they are perfect for decoration too.

JACKETS

Russell Europe's jackets and Softshells are ideal for any weather throughout the year, and for casual or professional events happening inside or outdoors. Our range includes waterproof, windproof, breathability and modern functional features that showcase Russell Europe's attention to detail.

BIONIC SOFTSHELL JACKET
410

Our innovative Bionic Softshell Jacket is engineered to provide elemental protection with an environmentally friendly, efficient and sustainable base. The material combines an ecological and pioneering technology. It can be worn over a base layer or as part of a layering system. Perfect for a smart corporate image for those who are searching for a piece of modern outerwear to top off their corporate look.

SOFTSHELL JACKET
140

Our outdoor Softshell jackets are built in three layers. The outer layer is a smooth, woven Softshell fabric that gives protection from the elements and is great for decoration. Next to the skin there's a cosy microfleece layer for comfort and warmth. In between is the internal layer where the real high-tech stuff happens. It's a membrane that lets moisture out but no rain in, for protection and comfort.

SMART SOFTSHELL GILET
041

Our Smart Softshells give you the comfort and breathability of a fleece with the chill protection and smart appearance of traditional Softshell. A Teflon-branded water repellent finish even provides protection against drizzle and a wipe-clean finish. With their high level of breathability, our 2-layer SmartShells keep the wearer warm when they're not moving, and dry when they're physically active. They're perfect for anyone who works indoors or in semi-sheltered areas – where they offer protection against wind and chill.

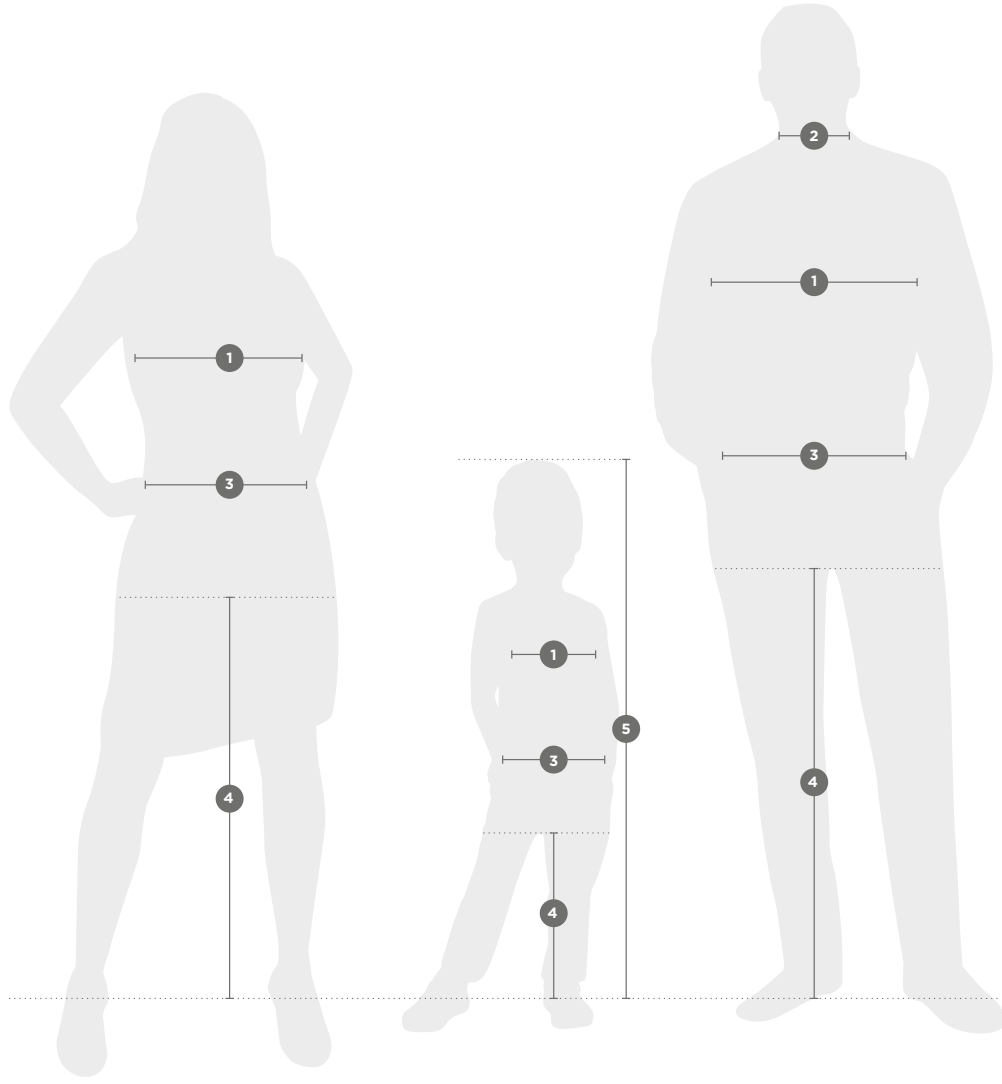
SIZE GUIDE

All of our measurements are based on actual "to fit" body sizes rather than the size of the garment itself. For example, a polo shirt with a chest to fit size of 92-97cm / 36-38" will fit someone with this chest measurement; trousers with a waist to fit 50 Europe / 34", will fit a person with this measurement.

Here are some tips to help you choose the most appropriate garment size(s):



CHEST

MEN: Measure around the fullest part of the chest, 2.5cm below the underarm ❶

WOMEN: Measure around the fullest part of the bust ❶

COLLAR

MEN: Measure around the base of the neck ❷

WAIST

ALL: Measure around the natural waist, keeping the measuring tape taut ❸

LEG LENGTH

ALL: Measure from the top of the inside leg at the crotch down to where the trousers are normally worn with shoes ❹

HEIGHT

CHILDREN: Standing still with feet together and flat on the floor, measure from the top of the head to the ground ❺
